

GRABER®

ARTISAN DRAPERY, FABRIC SHADES AND TOP TREATMENTS

## EXPRESSIONS OF ELEGANCE BEGIN WITH A TOUCH ... *OF ARTISTRY*

The finest window treatments have that rare ability to make a statement that is uniquely personal, uniquely you. The distinctive fabrics in the Graber® Artisan collection feature colors, patterns, textures and weaves that will enhance your home's décor – from classic to bold, whether formal or casual.

Soft and welcoming, this exclusive collection includes handcrafted drapery, fabric shades, pillows, fabric by the yard and top treatments. Your Graber designer is pleased to assist you in expressing your personal style and in turn, achieving truly stunning effects.

Front: Draperies with Four Finger Pleat: Pristine, Karat 2263. Back: Sheer Draperies with Four Finger Pleat: Gossamer, Champagne 1720.  
Traditional Swag and Cascades, Center Dominant: Pristine, Karat 2263.

Draperies with Back Tab: Seaside, Indigo 3360. Graber Traditions® Wood Shutters with 2 1/2" Louvers, Hide-a-Tilt™: Snowflake 1603.

Sheer Draperies with Inverted Pleat: Bengali, Jute 2761. Classic Flat Roman Shades with Bottom Up/Top Down Corded and Standard Fabric Valance: Luminous, White Sand 2242.

## CUSTOM DRAPERY CREATES A CASCADE OF REFINED BEAUTY

Your grace and style come center stage with the flowing look of Graber® Artisan draperies. Pair your favorite fabric with one of twelve distinctive heading styles, then add a touch of sophistication with fabric banding or by combining two solid colors into single drapery panels.

*THE ARTISAN TOUCH:* Double-turned hems, mitered corners, sewn-in liners and bottom weights assure that nothing will detract from the beauty of your drapery.

## DRAPERY LENGTHS

The length of your drapery can be used as a style statement. Choose the length that supports your lifestyle and complements your décor.

### FLOOR

Measures approximately 1/2" above the floor.

### TROUSER

Measures to the floor plus an additional 2" to the length to create a break at the floor, similar to how a trouser leg breaks on top of a shoe.

### PUDDLE

Measures to the floor plus an additional 6"-10" to create a fabric pool on the floor.

### SILL

Measures to the window sill; typically used on an inside mount.

**APRON** Measures to the bottom of the window trim; typically used on an outside mount.

APRON

Draperies with Cartridge Pleat: Aerie, Dove 2520. 2" Wood Blinds with Cordless Lift: Espresso 1716.

## DRAPERY STYLES

With its comprehensive collection of heading styles, Graber® Artisan draperies offer the ultimate in design versatility. When coupled with the perfect fabric, any of these timeless drapery styles can make a uniquely personal design statement.

*THE ARTISAN TOUCH:* From traditional pinch pleats to modern grommets, you can either complement or contrast your existing décor for maximum impact.

Draperies with Inverted Pleat: Velveteen, Peacock 2143; Contrast Banding on Inside Edge in Pendant, Silver Leaf 2726. Balloon Shades with Standard Cord Control: Glacé, Oasis 3408.

Draperies with Grommet Top: Loft Stripe, Slate 3581; Round Grommets in Brushed Nickel 45. Seamless Roman Shades with Standard Cord Control and Standard Fabric Valance: Pendant, Silver Leaf 2726.

## FABRIC SHADES BLEND PRACTICALITY WITH REMARKABLE FLAIR

Graber® Artisan fabric shades allow you to showcase the beauty of your favorite fabric with a wide array of versatile styles. Go flat for simplistic chic or add graceful dimension with richly folded waterfalls. Depending upon the style of fabric and liner you choose, these multipurpose shades can also be used to gently filter or stubbornly block light from entering the home.

***THE ARTISAN TOUCH:*** Available in most styles, cordless and motorized shade options empower a look that's both fashionably sleek and functionally smart.

# FABRIC WINDOW TREATMENTS ARE ONLY THE BEGINNING

*BEAUTIFY* your windows with custom fabric treatments from Graber® and you share the essence of your individuality and personal style. Explore the exciting possibilities with the entire Graber product line – from blinds to shades and shutters to draperies.

*CREATE* an intriguing dimensional effect by combining a variety of Graber product offerings. Imagine starting with a cellular shade, next adding complementary draperies and finishing the look with a coordinating top treatment.

*ENVISION* a simple, streamlined look? You'll continue to find smart ideas from the complete Graber product line. Add a motorized lift or tilt to conveniently operate multiple shades in the same room or control window treatments that are hard to reach.

*EXPECT* every aspect of your window to delight you. Like a piece of art, your window treatments have the ability to establish a mood, evoke an emotion and enhance an outlook on life itself. Your Graber designer can help you create window solutions that quite literally bring your dreams to life.

Cellular shades have the dual capability of being a decorative, yet practical under-treatment when paired with draperies in a complementary fabric. Coordinating top treatments complete a sophisticated, layered look.

## CONTROL OPTIONS

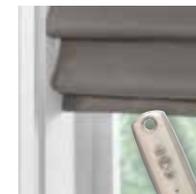

**STANDARD CORD CONTROL**  
Standard cord control is located behind the fabric and can be placed on the right (standard) or left of the shade. A front placement option is available.

**CORDLESS LIFT**  
Cordless control provides a cleaner, more streamlined appearance; no operating cords are needed to lift the shade for enhanced safety in homes with children or pets.

**CONTINUOUS-LOOP LIFT**  
A powerful clutch lifts the shade and holds it steady without the bead chain changing length, for smooth and easy operation.

**MOTORIZED LIFT**  
Conveniently raise or lower hard-to-reach or multiple shades with a hand-held remote control, automatic timer or wall switch; ideal for homes with children or pets.

## UNIQUE WINDOW CONSIDERATIONS

Grab® Artisan fabric shades can be custom-ordered to fit a variety of unique window covering needs. This versatility allows you to make the style statement you want in virtually any room in your home.

**BOTTOM UP/TOP DOWN**  
Lower a shade from the top or raise it from the bottom to maintain privacy while letting in natural light; ideal for bedrooms and bathrooms.

**BAY OR CORNER WINDOWS**  
Mitered corners on fabric shades fit together to create an attractive view.

**MULTIPLE SHADES ON ONE HEADRAIL**  
A single headrail with up to three independent shades accommodates wide windows.

## LINER OPTIONS

Your drapes hang more beautifully with the body and substance liners provide. This important option also protects fabric from outside elements and helps insulate your windows for maximum comfort. A liner is added to the back of all drapery and shade fabrics, with the exception of sheers.

### STANDARD

Comes on all basic drapery, fabric shades and top treatments.

### PREMIUM SATEEN

Superior lining that hangs and drapes beautifully.

### BLACKOUT

Thoroughly blocks light from entering through the fabric.

### THERMAL

Enhances energy efficiency by insulating from heat and cold.

### WATER REPELLENT

Specially treated to repel both moisture and dust.

### INTERLINING

Extra flannel lining inserted for added weight and protection .

## FINISHING TOUCHES

Punctuate your design statement with style. Banding and color blocking enhance the custom look of your drapery, while trim adds sophistication and color to draperies, shades or top treatments.

### PILLOWS

Pillows are available in three shapes—square, rectangular and round—and in fabrics to match your window treatments.

### TRIM

Personalize your look by choosing from the diverse selection of trim styles; each available in colors to complement any fabric. Trim creates extra visual interest and adds a touch of designer style to your draperies, shades or top treatments.

Draperies with Roll Pleat and Color Blocking: Top Fabric: Homage, Autumn 3046, Bottom Fabric: Homage, Chocolate 3052. Looped Roman Shade with Standard Cord Control and Standard Fabric Valance: Circa, Auburn 2321.

### COLOR BLOCKING

Combine two colors of the same fabric in one drape for a unique custom look. The secondary color will be used for the bottom third of the draperies. Available in all solid fabrics except sheers, laces and casement fabrics.

### BANDING

A 3-inch-wide accent in a contrasting color or fabric can be added to the inside edge, outside edge or both inside and outside edges of your draperies. Available in all fabrics except sheers, laces and casement fabrics.

### WOOD CORNICES

Accent your custom fabric window treatments with the beauty of real wood. Wood cornices bring extra style to virtually any décor, from traditional to contemporary.

### KEYSTONES

For added architectural interest, consider adding keystones to your cornices. A keystone in a matching color lends quiet distinction, while a keystone in a contrasting color makes a bolder statement.
